

Academic Year 2021-2022

Using both School led tutoring and National Tutoring program we have been able to hire, through the SP Tutors company, 2 tutors, one who works with us 2 day a week, and the other 5 days a week. Both provide weekly feedback on the sessions for teachers to reflect upon when planning lessons for the students. Students are in groups of 3-5 pupils and will receive 15 hours of tutoring in either Maths, Reading, Writing or Reading and Writing, depending on their needs.

	Year 5 English	Year 5 Maths	Year 6 English	Year 6 Maths
Number of students receiving tutoring	25	25	33	24
Total				107

While the tutoring this year is in its early stages, we are already seeing an impact in our classrooms; children discussing different methods for solving problems and ideas for approaching new concepts, which their tutors have shared with them. This is very promising and we will continue to monitor progress and impact of tutoring through termly testing with our next data point in March 2022.
